

Up here in Alaska K-LOVE is the only Christian radio station to provide the uplifting and encouraging music we need during the long, dark, cold winters. We know MANY people here who listen to and appreciate K-LOVE as much as we do, and we would all be very disheartened if it were to be displaced by an LPFM broadcaster providing other programming. The public here doesn't want other broadcasting, they want K-LOVE. Please keep the current FM translators, if not for the benefits K-LOVE provides to the community as a whole, at least don't forget about our young children and teens to whom K-LOVE provides wholesome music to help guide their lives and provide them some hope in this dark world.
